Evening:

3-in-1 Cleanser
Microderm Step 1 (use only once)
Microderm Step 2 (use only once)
Night Solution
Firming Eye Cream
Moisturizer
Satin Lips Mask & Balm
Oil-Free Makeup Remover

Product Facts:

3-in-1 Cleanser: A cleanser, exfoliator, and toner all in one! Apply up & outwards to your face and neck 2x daily (ESPECIALLY at night- did you know, for every night you go to bed without washing your face, it ages your skin 9-13 days?). Formulated for your skin type. Purple stripe on back = combination/oily. Pink stripe on back = normal/dry.

Microderm Set: Use 1-2x weekly. Perfectly uniform aluminum oxide crystals roll over your face and gently exfoliate the dead layer of skin off. Great for dry spots, blackheads, large pores, acne scars, etc. Step 2 has a tri-tea complex, containing red tea, green tea, and white tea to calm your skin as well as antioxidants and peptides to protect the fresh skin that was exposed while exfoliating. Pat onto face after exfoliating in small circles.

Replenishing Serum C: “Botox in a box”. Pat onto face. Pomegranate Extract, Kakadu Plum, and Camu Camu work together to provide 150x the vitamin C of an orange. Vitamin C penetrates elastin fibers, plumping them up & diminishing the appearance of fine lines & wrinkles.

Day Solution: SPF 35. Pat onto face. Gluten-free means no sticky mess on your hands or face. Thin enough to use under makeup daily. Mary Kay does not use carcinogenic ingredients in their products. All products are tested by the FDA before release.

Night Solution: My favorite product! Pat onto face. Capsulated doses of vitamins A, C, & E burst with each pump to give you the freshest dose possible. You can use this product on literally ANYTHING. Acne, cuts, scrapes, burns, bug bites, etc. Mary Kay has 6 patents on this product so there is nothing out there like it!

Firming Eye Cream: Firms & brightens eyes. Apply with your ring finger (the weakest finger on your hand) for optimum results. Works great for dark circles, puffiness, and “droopy” upper & lower lids.

Moisturizer: Also comes in 2 formulations: Normal/Dry and Combination/Oily. Apply up & outwards to your face and neck 2x daily.

Satin Hands Set: Apply hand softener, then use hand scrub for 1-2 minutes & rinse with warm water. Apply lotion as needed. Safe for use multiple times a day.

Satin Lips Set: Apply lip mask to lips for 1-2 minutes, rinse with washcloth. This will slough away dead skin & bring the blood flow to your lips, naturally plumping them up. The lip balm is a deep-pore penetrator that does not have phenol or camphor in it (drying agents commonly found in most drugstore lip balm brands).

Foundation primer: SPF 15. Apply downwards on face, starting on cheekbones & work to chin area. Silicone-based so it won't clog your pores. Primer helps your makeup stay for 8-12 hours, fills in imperfections, and adds a bit of sun protection.

Oil-Free Makeup Remover: Shake & apply a small amount to a cotton ball or pad. Gently & quickly remove eye makeup without clogging pores. Our makeup remover has won dozens of makeup awards. All of our products have a 100% money-back guarantee and are backed with the Good Housekeeping seal.
